

YDNA

MURD

YDNA MURD is a specialist in live Drum and Bass drumming. He is a Performer, Teacher, Author and Producer with extensive international touring experience under his belt.

YDNA MURD is an incredible Drummer who has ventured into the Live DJ world working to deliver a stellar mix of Drum and Bass, Neurofunk, HipHop and Dubstep sounds sure to move the dance floor. His live performance is unique and eclectic, the energy coming of his rig is infectious. His controllers and pads are loaded with incredible pre-produced sounds, bass lines and atmospheres which he mixes and arranges live on stage, while delivering fast and highly technical Drum&Bass stompers on his drum kit. His show has the flow of a DJ mix with the excitement of a real live performance. He can easily be considered one of the hardest working drummers in the biz, not only because of the high speed Drum&Bass and Neurofunk he's firing off but also because of his multitasking skillz!

On stage equipment: Roland TD-30 electronic drum kit, Ableton Live, Roland SPD-SX, Akai APC 40, In-Ear monitoring system
